

## Site Inventory

Elementary School:

Inspector:

Address:

Inspection Date:

Number of children enrolled:

Pre-primary and Kindergarten: \_\_\_\_\_

Primary (First through Third Grades): \_\_\_\_\_

Intermediate (Fourth and Fifth Grades): \_\_\_\_\_

Total: \_\_\_\_\_

### **Instructions for completing School Playground Site Inventory:**

1. **Number of Pieces of Equipment Present** - For the third column of this inventory survey, please enter the total number of play apparatus found on site where E=ECE, P=Primary, and I=Intermediate intended users.
2. **Number of Pieces of Equipment (10 years or older)** - For the fourth column of this inventory survey, please enter the total number of play apparatus found on site which is older than 10 years. If there is no historical documentation and/or knowledge as to the actual age of the apparatus in question, assume that the item is been on site 10 or more years.
3. **Factor Multiplier** - For the fifth column of this inventory survey, please multiply the number of pieces of individual equipment by the number specified.
4. **Number of Children Accommodated** - For the sixth column of this inventory survey, please enter the total number of children that the piece of equipment can accommodate. Note: Some play activities are rated assuming that a few children may have to wait for their turn. Also, on composite equipment (an apparatus composed of many activities) you need to rate the individual item for accommodating the number of children.)
5. When specific equipment is not listed, please find the nearest generic type of equipment possible or list it on the blank space.
6. Game areas are utilized differently buy each age group, i.e.; a football field is rarely used by 1st graders, but heavily used by 4th graders. The Factor Multipliers below are general guidelines only. Inspector should adjust these factors for "observed" usage patterns.

Item	Equipment Type	Number of Pieces of Equipment Present			Number of Pieces of Equipment 10 years or older			Factor Multipliers	Number of Children Accommodated		
		E	P	I	E	P	I		E	P	I
1.	Slides		-	-	-			2			
2.	Wide Slides		-	-	-			4			
3.	Swings		-	-	-			Number of Seats			
4.	Climber		-	-	-			1 per 4 feet of edge			
5.	Horizontal Ladder		-	-	-			3			
6.	Horizontal Bars		-	-	-			2 for long bar, otherwise use number of pieces			
7.	Fire Pole		-	-	-			number of pieces			
8.	See-Saw		-	-	-			2			
9.	Marry-Go-Round		-	-	-			1 per 1.5 feet of diameter			
10.	Balance Beam		-	-	-			2			
11.	Spring Toy		-	-	-			Number of Seats			
12.	Travel Rings		-	-	-			3			

Item	Equipment Type	Number of Pieces of Equipment Present			Number of Pieces of Equipment 10 years or older			Factor Multipliers	Number of Children Accommodated		
		E	P	I	E	P	I		E	P	I
13.	Tether Ball		-	-	-			4			
14.	Hop Scotch		-	-	-			3			
15.	Four Square		-	-	-			5			
16.	Ball Wall		-	-	-			4			
17.	Basketball		-	-	-			7			
18.	Football		-	-	-			7			
19.	Soccer		-	-	-			7			
<b>Subtotals</b>											
<b>Total number of children accommodated by playground equipment</b>								ECE: Primary: Intermediate:			
Total the individual numbers in column 6 and compare this total with the total number of children on the playground to determine if there are <b>at least 1.5 play opportunities per child.</b>
